1thing'N'common private beta underway - 11/19/2007

The Private Beta is ready to go. The first 1000 users will be able to test out 1thing'N'common and give us feedback so we can continue to make the community a success. As we receive feedback we will continue to make improvements to the site and fix problems.

After a bit of testing we will go into our public beta and everyone can join. Of course there will still be bugs to work out with the site, but that is what you are all for. So be sure to sign up and if you miss the private beta, be sure to return for the public!

Here is the featured church tab.
